Objectives

To work in a dynamic organization where I can utilize my skills in full stack development, web technologies,AI/ML exploration, and creative marketing thinking to build user-centric, efficient, and innovative digital solutions.

Projects

- Qeazy – Smart Q&A & Queue Management System**
An AI-powered platform for instant Q&A and real-time queue management, built using React and AI APIs. It includes ticket generation, position tracking, and live status updates, improving user experience by significantly reducing waiting time.
- AI-Based Fake News & Cybercrime Detection**
A machine learning system developed using Python, NLP, and TF-IDF to classify fake news and cybercrime content. Optimized preprocessing and algorithm tuning improved accuracy, helping identify misleading or harmful information effectively.
- Smart Voting System**
A secure online voting platform featuring user authentication, encrypted vote storage, and role-based access. Built using Java and MySQL, it includes automated counting and a simple UI, enhancing election transparency and minimizing manual effort.
- Feedback Management System**
A complete feedback collection and analysis application built with Java and MySQL. It includes rating inputs, structured forms, admin dashboards, and automated reports, improving feedback tracking and supporting data-driven decision-making.

Experience

Internships

Java Full Stack developer
Infosys Springboard 6.0
13.10.2025 - 13.12.2025 (2 month)

Salesforce Internship

8-week virtual internship (May 2025 – July 2025)
conducted by **SmartBridge in collaboration with Salesforce and AICTE.**

ACTIVITIES

IOT- WORKSHOP
Conducted a hands-on IoT workshop for juniors, teaching sensor basics, Arduino programming, and real-time data monitoring. Guided students in building IoT mini-projects and troubleshooting hardware,.

Skills

Technical:
Hard Skills: Full stack developer
Web Dev : HTML5 | CSS3 | JavaScript
Programming Language : C | Java | Python
Libraries : DBMS: SQL+ | MySql
Tools:
Git | GitHub | Power Bi | Canva
Soft Skills:
Team Management,Adoptability,Time Managemenr

CERTIFICATES

- NPTEL-2025-programming in java
- NPTEL-2025-Cloud Computing
- salesforce -Agentblazer Champion and innovator
- Infosys Springboard-java Foundation certification

Education

- (2022 -2027)**
MAHENDRAENGINEERIN COLLEGE
BE.CSE
CGPA = 8.5
- (2022 -2023)**
HOLY CROSS MATRIC HR SEC SCHOOL ,
DENKANIKOTTAI
Higher Secondary
Percentage:79%

Achievements

- second prize in hackthon
AITERHACK’25
- Ablaze24- First prize in paper
presentation

Language

- English
- Tamil
